APPLICATION DETAILS:			
Safety:	Handle with care. Before and during use, observe all safety labels on packaging and paint co consult HEMPEL Safety Data Sheets and follow all local or national safety regulations.	ontainers,	
REMARKS:	HEMPEL PAINT is produced and supplied in such a way that thinning is normally not necess provided the paint is properly mixed/stirred. However, if the paint is to be applied in a low film thickness (for instance as a "sealer coat") paint has become too thick, e.g. in cold weather, the HEMPEL THINNER(s) indicated on the data sheet may be added to obtain a consistency most suitable for application. As a general thinning should be kept at a minimum as the quality of the paint work will suffer from too libe However, if application is to take place at high temperatures (air and/or steel), thinning may beyond the limits mentioned on the data sheets may be necessary in order to avoid dry-spra film formation. HEMPEL'S THINNERS are blended to give the best results with regard to brush ability, spra properties, etc. In some cases ordinary solvents may substitute. As such products are beyond our control, w any responsibility for the results. In each case the respective product data sheet should be or	or if the product rule, ral thinning. even y and poor y ve disclaim	
	Always read product specification.		
Cleaning of tools: Storage Conditions:	Tools can usually be cleaned with the THINNER prescribed for the product. Exposure to air and temperature variances should be avoided. Avoid direct sunlight. Keep contightly sealed. Store at temperatures: 5°C/41°F - 35°C/95°F.	ontainers
